Headteacher's Message

Dear Families,

This week, our Year 1 pupils visited a local Gurdwara to find out about Sikhism, and they were wonderful ambassadors for the school as they took a tour of the place of worship. This follows our Year 3 visit to a local church and Year 4 visit to a local Mosque. I would like to wish a happy Vaisakhi to families celebrating this special time during the holiday break, on 14th April.

It was great this week to see all of the fantastic Easter creations coming into school for our competition. There was even an egg that opened up to reveal a miniature town inside, complete with lights, as well as a wonderful array of Easter hats!

The children learnt about dog safety in assemblies led by Geraldine Guest from Blue Cross this week. They learnt about the 'Three Cs of Canine Choice': Check it's safe, Call the dog to you, Count whilst the dog investigates you and stroke it gently. Performance Skills workshops for Years 3, 4 and 5 also took place this week, led by the students and teachers from BOA; you can find out about the academy at <https://www.boa-academy.co.uk/>.

Many thanks to the many parents and carers who joined us for parents' evenings, for our Year 2 workshop creating pizzas, our Reception workshop, our Year 5 workshop creating moon buggies, and our Y4 Reading workshop. We always welcome parents and carers into school, to find out about their child's learning in school and to find out how they can support at home.

We are delighted to be able to offer a Stay and Play for parents with children under 5. The sessions will run every Thursday morning, 9:00-10:30 am, from 15th May in our wonderful Nursery indoor and outdoor zones.

Last day of term is 11th April and school reopens for all pupils on 28th April.

Have a wonderful Easter break,

Kind regards

Christine Chapman

If you need someone else to collect your child...

*We know that sometimes you may need someone else to collect your child at the end of the school day. **Please make sure that:***

-
- *The person collecting your child is older than 16 (if they are your child's sibling) and over 18 (if they are not a sibling)*
 - *You inform the school before 2.30pm if someone new is collecting your child. Though we know other parents collect children for each other, you must let us know that you have given your permission*
-

Thank you for helping us to keep your child safe,

Becky Lewis

Apply for free school meals - Important!

[Apply for free school meals - GOV.UK \(www.gov.uk\)](https://www.gov.uk)

Dear Parents and Carers,

*Did you know that by registering your child for free school meals, you're not only ensuring they get a nutritious, hot meal every day but also supporting our school's funding? Every child who is registered for free school meals **generates extra funding for the school, which we can invest directly back into your child's education and wellbeing.** This funding helps us provide more resources, better learning environments, and additional support for our pupils. While all children in Reception, Year 1, and Year 2 (as well as those under the Mayor's Meals scheme in London) automatically receive free school meals, we only receive extra funding if you officially register your child. Please read the attached letter for information on how to apply.*

— AND —
THE WINNERS
are...

House Points are now collected using Marvellous Me. **You can see you child's individual house points by clicking on the 'thumbs up' button.** However many 'thumbs up' they've had, this is the number of house points they have received in school!

This week's winner overall is Berners-Lee!

Safeguarding and Wellbeing Update - Search Engines

What Parents & Educators Need to Know about SEARCH ENGINES

WHAT ARE THE RISKS?

Search engines are an integral part of everyday life – with Google alone processing around 100,000 searches every second. Search engines use algorithms to predict which results will be useful to us, though this can expose children to inappropriate content, misinformation and even scams. This guide explains the risks associated with search engines and offers practical advice to help safeguard young users online.

MANIPULATED SEARCH RESULTS

Although search engines take site reputation into account, trustworthiness isn't the main factor. Instead, they use algorithms that can be gamed via tactics like search engine optimisation (SEO), which is big business. As a result, users may encounter misleading content and low-quality commercial products that appear more credible than they actually are.

MISINFORMATION AND DISINFORMATION

Search engines index billions of web pages – and not all of them are factual or safe. Children might stumble across false information or even deliberate disinformation, especially when searching for trending topics or controversial issues.

ENGINES BEYOND GOOGLE

Even if Google's SafeSearch is enabled, children may use lesser-known search engines that don't have similar protections. Some of these alternatives are less effective at blocking unsavoury content – sometimes by design – making it easier for children to encounter harmful or explicit material. Parental controls may also struggle to detect and block these sites.

FUNNY JOKES

ILLEGAL CONTENT CAN SURFACE

Search engines are designed to retrieve content based on keywords – not to judge whether that content is lawful. As a result, even illegal or harmful material can appear in search results. Children might assume that anything found through search engines must be safe, just because they're so widely used. This misunderstanding can lead to accidental exposure to seriously inappropriate content.

INAPPROPRIATE CONTENT EXPOSURE

Although parental controls like Google's SafeSearch exist, they aren't foolproof, and search engines may bypass them. Young users may still see inappropriate images or content, especially in image searches, even though they may not be able to click on the results. Some niche search engines lack even basic filtering, posing further risks.

UNRELIABLE AI SUMMARIES

Some search engines now offer AI-generated answers at the top of results. While these can be helpful as webpage summaries, they're not always accurate. There have been instances where AI summaries have presented false or even dangerous information, reinforcing the need for critical thinking.

Advice for Parents & Educators

ACTIVATE PARENTAL CONTROLS

While no parental controls tool is perfect, this software can help reduce the likelihood of inappropriate content appearing in search results. Use tools like Google Family Link to set search restrictions and monitor your child's browsing activity.

IDENTIFY AND AVOID ADVERTS

One of the ways search engines generate revenue is by showing adverts to their users. Sponsored search results are labelled, but they're not always easy to spot and can sometimes be malicious. Show your child how to distinguish between paid ads and organic search results – explain why some ads might be misleading or unsafe.

QUESTION AI-GENERATED CONTENT

While AI content is generated quickly and often appears legitimate, teach children that, just because an AI summary is well presented, it doesn't mean it's accurate. Encourage them to review the sources behind AI summaries and check the information with reputable sites or fact-checkers.

PROMOTE DIGITAL LITERACY

Encourage children to question the motivation behind online content and develop critical thinking, as not all sites can be trusted. Some deliberately misinform users in order to sell products or promote misinformation. Developing a critical mindset is one of the best defences against these tactics.
